Education

The University of Melbourne **Dec 2024**
Bachelor of Science, Computing and Software Systems Melbourne, VIC

- Game Maker's Club game jam winner.

Experience

Full Stack Software Developer Intern **April 2025 – July 2025**
Uptick *Melbourne, VIC*

- Contributed to full-stack web development using React and the Django REST Framework.
- Led implementation of the React-i18next framework to provide internationalisation for all languages.
- Refactored acceptance tests for frontend workflows using Cucumber and Playwright by analysing Grafana logs and monitoring CI/CD pipelines with CodeCov to reduce average flakiness rate by 15%.
- Assisted senior developers with incidents and fixed critical bugs triaged by Sentry, and communicated with the support team to relay updates and solutions back to customers.

Projects

Swivle! Playable Demo, Repo
Godot, GDScript, Game development

- Word game developed in Godot as a part of my game development journey.

Creative Coding Video 1, Video 2, Repo
